

PARK AVENUE CONDOMINIUM ASSOCIATION INTERCOM DIRECTORY

Our intercom system works by using your phone number. Most Park Avenue residents' use their cell phone number for the intercom due to the fact that should they have a visitor come over and they are not home but want their visitor to gain entry to the building, they merely push "6" on their cell phone and their visitor will be able to enter the building. If a home phone number is used, someone will have to be home to push "6" on that phone in order to allow access to the building.

If you do not wish to have your name listed in the directory, you still must complete and return the form and indicate on the form that you do not wish to have your name listed.

Please print all information clearly and submit it to the Park Avenue office immediately.

Thank you for your cooperation.

Name: _____

Unit #: _____

Phone number: _____

(If not a 630 area code, be sure to include the area code)
